FACELESS48 · RECORDING CHECKLIST

Lessons 1, 2, 3, 4 and 9

Record in this order. Each lesson builds on the last.

Before you record anything (once)

- ☐ Make a new empty folder, "Faceless48 Demo," outside cloud sync.
- ☐ Unzip beta.5 into it.
- ☐ Turn off notifications and close private tabs.
- ☐ Use a clean assistant window.
- ☐ Have ready: a 30 to 60 second clip, a short voiceover, your logo (transparent PNG), your three hex colors and your brand name.

Lesson 1: Download, install and open it

- ☐ Show the lesson and the two files, then the download.
- ☐ Unzip into the demo folder.
- ☐ Open the folder in Claude Code.
- ☐ Paste the first message from the Start Here guide.
- ☐ Show the requirements check passing.
- ☐ Say it works the same in Codex.

Lesson 2: Get me set up (about 10 min)

- ☐ Type "Get me set up."
- ☐ Brand name, tagline and who it's for.
- ☐ Copy the logo into the brand folder.
- ☐ Colors: show Canva, Inspect, or the logo suggestion.

- ☐ Choose the metallic finish.
- ☐ Choose fonts.
- ☐ Say who is on screen.
- ☐ Zoom in on the three-caption-style image.
- ☐ Set your defaults.
- ☐ Read back the summary.

Lesson 3: Add your footage and voiceover (about 6 min)

- ☐ Drag the clip into the raw folder (method one).
- ☐ Show the Drive share link (method two).
- ☐ Set sharing back to Restricted afterward.
- ☐ Put the voiceover in the raw folder.
- ☐ Say "This is my voiceover. Turn it into an explainer."

Lesson 4: Make my video (about 8 min)

- ☐ Type "Make my video."
- ☐ Check the transcript and fix one thing.
- ☐ Show the storyboard sheet and approve it.
- ☐ Cut the waiting while it renders.
- ☐ Show the finished file and what it says it couldn't check.
- ☐ Ask for one change in plain words.

Lesson 9: Stock footage (about 8 min)

- ☐ Stock test finished in the other chat: pick, download and credits all worked.

- ☐ Show the Pexels and Pixabay key pages. Blur or cut each key.
- ☐ Copy stock-keys.example.json to stock-keys.json and paste the keys. Blur or cut.
- ☐ Say "Check my stock keys" and show "set."
- ☐ Say "Find stock footage for this video."
- ☐ Open a preview link, then choose and download one clip.
- ☐ Say where you want the cutaway (for example, "When I say blank screen, cut away to the laptop clip") and show it in the storyboard.
- ☐ Say "Show me my stock credits."

After each recording

- ☐ Reset any Drive links to Restricted.
- ☐ Check that no key or private info shows in the take.
